

October 1, 2011

It is our pleasure to recommend Wade Smith and Four Lakes Landscaping. From the moment we met Wade, we were impressed with his professionalism and eye for detail. We hired Wade for a large landscape project and never doubted our choice.

Wade's initial proposal drawing was impeccable. It detailed every aspect of the project with the costs itemized. From the beginning, we had a clear idea of the time involved and the price per item. Wade took our input and made a design that showed knowledge of the topography of the yard and also artistic sense.

Every day it was obvious that Wade's employees shared his vision. They were polite, friendly and hard working. Each was highly skilled at his job and worked at each task until it was perfect. One could tell that Wade was proud of his employees and valued their talents.

Four Lakes Landscaping was at our home for over 4 weeks. Daily Wade would check in with us, report about the progress and make certain that we were satisfied. Each night they meticulously cleaned up the work area and made sure that our yard was cleared of tools and supplies. As each phase of the construction was complete, Wade explained what had been completed and what the next step was. The showpiece of the backyard was the water feature. Wade took particular pride in designing the waterfall. He placed each rock carefully and made it a work of art. It is truly magnificent, and his skill made it so.

Upon completion of our project, Wade scheduled a walk through where he explained his work and his guarantees. We feel confident that no other landscaping company would have put as much care, effort, skill and artistic design into our backyard. Wade and his employees went above our expectations with each phase of our project. We were extremely satisfied with Four Lakes and would not hesitate to recommend them.
