

Dear Wade:

It is a pleasure for me to recommend your company and yourself to potential clients. It has been a wonderful experience to work with you and the crew and everything was done professionally and on time. I would not hesitate to use Four Lakes Landscape again for any project regardless of size or scope.

To prospective clients, Wade designed my retaining walls and landscaping for a new house my wife and I built behind our existing Lake Charlevoix house for our children. I was required to request a building variance due to an ordinance that did not allow cutting or digging into a bank greater than 6 feet. The bank I wanted to cut into was 8 feet. Wade designed a retaining wall system and landscape plan that I was able to present to the township board and after their review, gain approval for the project.

Wade and his crew then came in shortly after the excavation was complete and built the retaining walls without getting in the way of the building contractor. Four Lakes Landscaping put in long hours (essentially 7 AM to dusk) to speed the building of the retaining walls and left the site clean of debris. Immediately all the neighbors were commenting about how nice the retaining walls looked.

Wade and Four Lakes then came back the following spring when the project was ready for landscaping. They showed up precisely on the day stated to start and proceeded to install the landscape plan we had chosen after working with Wade. Again, the crew worked hard and long days to speed the work along. I liked what Four Lakes was doing so well and how fast it got done that I even added some additional work towards the end of the project.

I am extremely happy with the end result and would not hesitate to use Wade and Four Lakes Landscaping again or recommend his company to other potential customers.

I would be happy to talk with any potential customers or have them drive by and look at the work Four Lakes has done for my wife and I.

Sincerely,

George Foster
